DETAILED ACTION

Claims 2 and 3 are pending in the instant application.

Amendments

The amendment filed on January 12, 2009 has been acknowledged and has been entered into the application file.

Previous Claim Rejections - 35 USC § 102

Claims 1 and 2 were previously rejected under 35 U.S.C. 102(b) as being anticipated by Mushkalo et al. (*CAS Accession No. 1988:133386, 1988*).

Applicant's amendments have removed the anticipated subject matter, and the rejection is withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kobayashi et al. (JP 10-310715 A).

Kobayashi et al. teach compounds of the general formula

where Z1-Z4 are groups to make a 5-6 membered ring, n1 and n2 are 0-3, L is a bivalent connecting group, and L1-L6 are methine. See the abstract. Kobayashi et al. teach specifically a compound of the formula

which corresponds to the claims where

each m is 1, each Z₃ is phenyl, each R₁ is absent, each R₂ and R₃ is ethyl, Y is iodide.
 See page 9, compound I-8.

Kobayashi et al. do not teach specifically a compound where m is an integer of 2 or larger.

Kobayashi et al. teach in the generic formula above that the alkene chain may be extended up to 3 units. Kobayashi et al. teach one example of an extended alkene chain in compound I-15 on page 12:

Therefore, one of ordinary skill would be motivated by Kobayashi et al. to create the product of the instant claims with a reasonable expectation of success as Kobayahi et al. teach the required changes set forth in the instant claims.

Conclusion

Claims 2 and 3 are rejected.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
